

## HYPERTECH SUIT

//// AUTORACING / SIZE: 44 - 60 (44-62 BLACK RED)

Certified to FIA 8856-2000 homologation standard.

Super-lightweight at 210g/sqm and breathable two-layer suit incorporating thin stretchable panels for maximum comfort and effective regulation of body temperature.

Innovative and soft lining knitted fleece material technology offers breathability and comfort.

Formula 1-derived stretch panels are strategically placed at the lower back and sides, elbow, crotch and knee zones, to provide excellent flexibility, both in and out of the car.

Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving and allows for easy entry and exit into and out of the cockpit – important for ensuring comfort.

Reduced material volume in chest area to ensure maximum weight reduction and less material bunching under belts.

Nomex® anti-static outer shell fabric offers exceptional heat and flame-resistant properties.

Soft and thin wrist and ankle cuffs for maximum comfort and reduced weight.

Flat seam construction to reduce pressure points and improve strength.

Newly-designed soft collar incorporates leather details, knit fabric and secure hook and loop closure.

Alpinestars exclusive shoulder epaulette construction provides an effective feature for the extraction of the driver in the event of a crash.

Printed logos help maintain the suit's material integrity and reduce weight.

Premium YKK thin lightweight zipper personalized with Alpinestars leather puller, plus double slider for versatile and customizable fit.

Sold with laundry bag for convenience. The bag also helps protect the suit's fibers.

Anatomically fitted for an athletic fit.

## GP TECH v2 SUIT

//// AUTORACING / SIZE: 44 - 60 [44-64 BLACK]

Complies with the FIA 8856-2000 homologation standard and SFI (SFI:3.2A/5).

Lightweight and breathable multi-layer suit incorporating thin stretchable panels for maximum comfort and effective regulation of body temperature.

Updated outer shell uses lighter weight material.

Formula 1 derived stretch panels are strategically placed at the center of the spine, lower back, elbow, crotch and knee zones to provide great flexibility, both in and out of the car, and aid entry and exit from the cockpit.

Reduced material volume in chest area to ensure maximum weight reduction and less material bunching under belts.

Alpinestars fully floating arm construction with stretchable knit fabric ensures minimal material resistance while driving.

Nomex® anti-static outer shell fabric for exceptional heat and

flame-resistant properties.

Soft and thin wrist and ankle cuffs for maximum comfort and reduced weight.

Soft collar with knit fabric and secure hook & loop closure for improved comfort.

Alpinestars exclusive shoulder epaulette construction providing easy extraction system.

Printed logos help maintain the suit's material integrity while reducing weight.

Premium YKK thin lightweight zipper personalized with Alpinestars leather puller, plus double slider for versatile and customizable fit.

Thigh pockets for convenient and unobtrusive storage.

Sold with laundry bag for convenience. The bag also helps protect the suit's fibers.

### TECH-1 ZX GLOVE

//// AUTORACING / SIZE: S-2XL (S-3XL BLACK WHITE)

Complies with FIA 8856-2000 homologation standard.

Innovative flame-resistant aradamic fiber main construction with a bonded aradamic inner lining to ensure optimal temperature control for maximum comfort and feel.

Combination of innovative material construction methods result in a significant reduction in glove weight as well as an extensively

reduced material design.

Newly developed latex sprayed interior grip zone improves comfort and combines with outer grip zones for superb control and feel on the cockpit's controls.

New ergonomically designed grip technology on palm and fingers with strategically positioned silicon surface patterning for improved flexibility and control.

Ergonomic chassis design and

pre-curved fingers for improved performance fit to reduce fatigue while offering a secure and snug fit around the wrist area.

Alpinestars' cuff opening design with 180° elasticated wrist for easy entry and secure fit.

External seams provide superior comfort and prevent any excessive pressure points forming on the hands while driving.

## TECH-1 RACE GLOVE

//// AUTORACING / SIZE: S-2XL

Certified to FIA 8856-2000 homologation standard.

Fire-resistant aramid fiber main construction which is bonded for optimized levels of performance, comfort and improved safety.

Combination of innovative material construction methods result in a

significant reduction in the glove's weight as well as an extensively reduced material design.

Full gauntlet, single panel top construction.

Pre-curved fingers and palm help reduce fatigue while driving.

Minimal seam construction offers

added comfort and improves feel and weight-saving performance.

New extended and strategically positioned silicone printing on fingers and full palm improves grip and feel.

Elasticized wrist band closure ensures a secure fit.

## TECH-1 START GLOVE

//// AUTORACING / SIZE: S-2XL

Constructed from supple and durable full-grain leather with strategically placed 3D mesh inserts providing an optimized airflow.

Localized perforations on palm and backhand, Ventilated fourchettes, TPR air intakes on fingers and knuckle protectors help keep the hands cool when riding.

Synthetic suede reinforcements on the palm and outer hand landing zones provide maximum abrasion resistance in key impact zones.

Ergonomic stretch insert on palm. Pre-curved finger construction reduces rider fatigue.

Injected TPU palm slider for superior impact and abrasion resistance.

Race proven injected TPU knuckle protection system to absorb and dissipate impact.

Palm, fingers and backhand padded with energy absorbing E.V.A foam for additional protection.

Hook and loop Wrist adjuster

and wide hook and loop strap on the cuff provide a secure and adjusted closure.

Stretch accordions and lycra gusset on fingers and thumb for superior fit and flexibility.

Touchscreen compatible index fingertip and thumb allow the use of smartphone and GPS systems.

Printed logos.

Alpinestars patented third and fourth finger bridge prevents finger roll separation in the event of a slide.

KMX-9 v2 SUIT

//// KART RACING / SIZE: 40-60

Certified to CIK-FIA Level2 homologation standard. N 2013-1.

Advanced two-layer construction assembly for optimized performance, improved breathability and weight saving.

Engineered for durability, minimal material bunching and abrasion resistance, while the poly-toweling lining boasts moisture-wicking properties.

Alpinestars asymmetric front opening design aids fitting.

Knitted stretchable panels on back shoulder and lumbar area ensure minimal material resistance while driving.

Tech mesh panels positioned on the underarms and seat area for optimized ventilation.

Alpinestars Formula 1-derived design

and technology shoulder epaulettes.

Ergonomic collar with soft knitted lining for extended coverage and maximum comfort with safe closure system.

Adjustable waist belt allows a tight personalized fit.

Anatomical arm, leg and torso paneling is patterned to create the optimum position while driving.

Knitted wrist and ankle cuffs provide a snug fit and help prevent unwanted movement of the suit.

Two thigh pockets offer a convenient storage option for those times away from the driving seat.

Premium YKK zipper with personalized zipper pullers, plus double slider for versatile and customizable fit.

Comes in a wide range of aggressive new colorways.

**KMX-5 S SUIT****//// YOUTH KART RACING / SIZE: 120-150**

Complies with the CIK FIA Level2 homologation standard N 2013-1.

Designed and developed for a specific youth fit.

Technical two-layer construction that meets new homologation standards, featuring a 100 per cent polyamide outer shell and 3D poly-fabric lining for excellent levels of cooling airflow and comfort.

Engineered design for durability and superior performance fit.

Mesh panels positioned on under arms and seat area.

Fully-floating shoulder gusset construction with stretch material provides improved freedom of movement.

Stretch inserts around the lumbar area for enhanced flexibility while in and out of the kart.

Knitted wrist and ankle cuffs provide a snug fit and help prevent unwanted movement of suit.

Adjustable collar and hook and loop grip strap waist belt allows a tight, personalized fit.

Two flat pockets offer a convenient storage option for those times away from the driving seat.

## YOUTH NECK SUPPORT

//// ACCESSORIES / SIZE: OS

Designed and developed for a fit that is specific to a youth driver's anatomy.

Frame constructed from injected polymer compound that has been extensively impact tested at performance on a range of off-road surface and varying temperatures.

Frame has been ergonomically engineered to promote contact with the helmet during impact - including rear support edge that fits closer to the body and raised chest to avoid hyper-flexion injuries - thus providing a solid surface which instantly channels damaging, compressive impact energy away from the neck and on to the support.

Frame's anatomical profile promotes positive helmet contact in event of a

crash while allowing rider freedom of movement.

Rear stabilizer system helps keeps support in position and is also designed to channel extreme energy loads away from the spine by transmitting it across the shoulder and helping to avoid serious spinal injury.

Ultra-lightweight EVA foam on the support's underside for comfort and positioning and to distribute the impact force over the widest possible area.

A new closure system for convenient engagement of support and to facilitate quick removal in case of emergency.

The support is supplied with the easy-to-use strap system which allows use over or under the jersey to secure the device on the rider.

## SEQUENCE YOUTH NECK ROLL

//// ACCESSORIES / SIZE: S/M - L/XL

New hybrid kids neck protection with extended tail for high position stability.

Ergonomic designed and engineered shape to fit kids from 6 - 10 yrs. and from 10-14 yrs.

Double density core is made from a soft PU foam base embedding a hard layer EVA for energy dissipation.

Bottom and internal soft section (neck side) provides

comfort for the shoulder and neck, hard section on the upper part to give stability and provides force distribution when the helmet is impacting.

Easy to use soft strap closure on the front part.

Highly compatible with all other protectors and jackets.

Washable external cover with hook and loop grip rear closure.

## BIONIC RIB SUPPORT

//// ACCESSORIES / SIZE: S/L - XL/3XL (YOUTH SIZE: OS)

High performance ergonomic rib protection designed to offer comfort and support.

Multi-layer main body construction for ultimate performance.

Soft, advanced, poly lining for comfort.

Dual density laminated padding, incorporating 3mm high density padding against the body for improved comfort, laminated with 4mm impact absorption EVA foam for effective impact protection and reduced vibration.

Fiber-glass core for impact energy dispersion.

External 500D advanced poly fabric for improved abrasion resistance maintenance.

Slim and light impact dispersion shield for excellent shock dissipation and durability.

Fully adjustable, elasticated, front strap with snap closure for secure support and comfortable personalized fit.

Adjustable shoulder straps formed with soft and breathable 3D mesh.

Additional hook and loop grip strap rear adjustment helps refine size adjustment.

Perforated rear padding offers extra support and comfort.

## KART RAIN SUIT

//// ACCESSORIES / SIZE: XS-3XL (YOUTH SIZE: OS)

Clear, waterproof oversuit for competition use.

Constructed with light, 100% waterproof materials and taped seams to prevent water ingress.

Precise fit minimizes flapping at high speeds.

Alpinestars asymmetric front opening design.

Inner V-shaped gusset enables use during heavy downpours.

High profile collar provides a complete seal against the elements.

Elasticized cuffs on the wrist and ankles.

Heavy duty, textiles sleeve panel for resistance against heat from the kart's engine.

## TECH-1 KZ SHOE

//// KART RACING / PRODUCED SIZES: 2.5-13 (EXCL. 3 - 4 - 5.5 - 6.5) / CORRESPONDING TO: 34-47 EUR (EXCL. 34.5 - 35.5 - 37.5 - 38.5)

Advanced seamless thermo-welded construction consists of ultra-thin PU film and 3D mesh to provide supremely lightweight performance and maximum foot sensitivity thanks to the "sock-like" effect, with no pressure points on the foot for excellent comfort and fit.

New sleek shoe profile follows foot anatomy and guarantees great fit and performance.

Laser air-intakes and perforations on upper, with 3D mesh on tongue offer excellent breathability and comfort.

External heel, ankle and internal toe reinforcements for abrasion resistance and protection.

Alpinestars' lace-lock system constructed from an advanced polymer resin guarantees quick, precise and secure closure of the shoe.

Dual asymmetric closure system incorporates adjustable ultra-thin hook and loop grip strap plus aramid speed top lacing. System integrates Alpinestars' exclusively developed wire closure system, which strategically envelopes the foot

for optimal support and structure and offers durability, precise fit and secure closure.

Collar padding constructed from Nitrile rubber for comfort and weight-saving.

Soft microfiber collar is cut lower at the rear to allow greater Achilles' heel comfort and improved range of movement.

Tongue features perforated soft padding for comfort and improved fit.

Innovative Alpinestars foot counter for maximum performance: an ergonomic, polypropylene heel counter provides support and stability inside the shoe, while a flatter forefoot with die-cut ribbing provides greater feel on the pedals.

Ultra-thin Formula 1 specification sole uses Alpinestars exclusive rubber compound for pedal sensitivity and grip, in both wet and dry conditions.
