Suspension Tube

1.125 in OD · 18 in Long · 5/8-18 in Female Thread · Aluminum · Black Anodized

PART NUMBER
TIP2500-18
View on PriceGuidePro ›

OVERVIEW

Suspension tubes locate the axle and control how the chassis moves through a corner, so their length and thread condition directly set your bite and roll steer. Every one is adjusted, removed, and reinstalled constantly through a season of setup changes. Swedged ends and clean threads let you make precise length changes without fighting seized hardware.

Keeping spare lengths on hand means a bent tube after contact does not end the night.

Ti22 offers 1-1/8 Inch O.D. 6061 aluminum Radius Rods in 1/2 Inch increments from 18 Inch to 25 Inch. Rods are available in raw aluminum or with a black anodized finish.
