Ignition Box Bracket

Quick Release · Carbon Fiber · Natural · MSD Ignition Boxes · Flat Dash · Sprint Car

PART NUMBER
TIP4202
View on PriceGuidePro ›

OVERVIEW

The ignition box bracket mounts the ignition module where it stays dry and away from heat, protecting a component that stops the engine instantly if it fails. Vibration is also an enemy of electronics, so solid mounting matters. Carbon fiber construction keeps the bracket light while isolating the box.

Flat and bent versions suit different dash configurations.

Carbon Fiber MSD Ignition Box Bracket.

SPECIFICATIONS

Material	**Carbon Fiber**
Finish	**Natural**
Style	**Quick Release**
Fits Application	**MSD Ignition Boxes**
Vehicle Type	**Sprint Car**
