King Pin

0.625 in Diameter · 3.625 in Long · Steel · Natural · Short Boss Style Spindles · Micro / Mini Sprint

PART NUMBER
TIP3532
View on PriceGuidePro ›

OVERVIEW

The king pin is the pivot the spindle turns on, carrying steering, braking, and cornering loads at the very corner of the car. A bent or worn pin changes steering geometry and feel immediately. Hollow designs cut weight at the outer end of the suspension where mass matters most.

Correct diameter and length are what set your front end geometry.

Short Boss King Pin, 5/8 Inch Diameter x 3-5/8 Inch Tall.
