AN Hose Assembly

60 in Long · 3 AN Hose · 3 AN Straight Female to 3 AN Straight Female · Kevlar · Aluminum · Black Anodized

PART NUMBER
TIP4520-60
View on PriceGuidePro ›

OVERVIEW

Pre-assembled AN hose lines give you a brake or fuel line with crimped ends that will not weep, in a length that suits the routing. Building lines by hand invites leaks at exactly the connections you cannot afford to lose. Kevlar and braided constructions resist the abrasion and heat found around brakes and headers.

Correct length matters because excess hose chafes and too little puts strain on the fittings.

60 Inch Long. Constructed from the same material bulletproof vests are made from. These Kevlar brake lines are the strongest brake lines on the market.

They are very flexible and feature crimp swedged straight aluminum ends.
