BANDOLERO NATIONAL CHAMPIONS
2015 DANIEL WILK

TESTIMONIALS

A driver wearing a black racing helmet with a visor and a red and yellow racing suit is seated in the driver's seat of a race car. The cockpit is visible, showing the steering wheel and various controls. The driver is looking towards the camera. The background shows the interior of the car and some equipment.

KEVIN HARVICK 2014 NASCAR SPRINT CUP SERIES CHAMPION

"MPI has gone out of their way to create a wheel that feels comfortable to me. Along with comfort it looks great, extremely light, and most importantly safe!"

JIMMIE JOHNSON 6-TIME NASCAR SPRINT CUP SERIES CHAMPION

"The quality, attention to details, light weight, comfort and time spent on the safety R&D have been the qualities that I admired in the MPI steering wheel and the reason why I trust them for my racing."

CHASE ELLIOTT 2014 XFINITY SERIES CHAMPION

"I've had the opportunity to use MPI steering wheels this season and the quality is one of a kind. The time and effort that goes into their wheels are second to none along with the continued effort to make things even better. "

JOHN HUNTER NEMECHECK 2014 SNOWBALL DERBY WINNER NASCAR CAMPING WORLD TRUCK SERIES DRIVER

"I trust MPI steering wheels because of their quality, comfort, and dedication of time to make a safe, yet light weight steering wheel."

TESTIMONIALS

DONNY SCHATZ 6-TIME WOO SPRINT CAR CHAMPION

“MPI has revolutionized the dirt racing world with its new D-15 wheel. It has great feel, awesome looks, and is definitely the safest wheel on the market. It has given me front end feel like never before!”

TOMMY KENDALL 4-TIME TRANS-AM SERIES CHAMPION

“The steering wheel and seat are your primary interface with the race car...your personal contact patch, if you will. For me, they help set my mood in the car. When I put my MPI wheel in my new Trans Am car, I just felt better and any racer will tell you, that shows up on the stopwatch.”

RYAN PREECE 2013 WHELEN MODIFIED TOUR CHAMPION

“For years I've been looking for a steering wheel that fits my needs, and MPI wheels do that and so much more. It's great to have them be a huge part in getting to victory lane.”

TEDDY CHRISTOPHER WHELEN MODIFIED TOUR DRIVER (OVER 40 WINS)

“I finally found in the MPI steering wheels the feel good feeling I have been looking for so long time they are part of my success and I truly recommend them to all racers.”

ABOUT US...

MPI stands for MAX PAPIS INNOVATIONS and was founded in 2009 by Max Papis and Tatiana Fittipaldi Papis, in Mooresville, NC.

Max is currently the European driver with most NASCAR starts and has driven and worked in almost all forms of the motor racing; Karting, F1, CART, Indycar, NASCAR, Sports-Car, amongst others. He is regarded as being one of the pioneers in the sport in improving overall ergonomic characteristics of the interior of any car he's driven, focusing his attention on stock cars since being involved in the COT development with Hendrick Motorsport in 2005.

Tati was born into racing with parents Emerson and Maria Helena Fittipaldi. She has a bachelor degree in Advertising and Psychology and a minor in Marketing, from the University of Miami. She is a proud member of the North Carolina Motorsports Advisory Council under Governor Pat McCrory. Max, Tatiana, and their 2 son's, Marco and Matteo, live in Statesville, NC.

All MPI wheels are designed and engineered in the USA and built in ITALY using the latest steering wheel technology and state of the art materials. MPI prides itself on several wins in CUP, NW, Truck, Late Models, Legends and local races. In 2014, MPI won its first NASCAR Sprint Cup Series Championship with Kevin Harvick and Stewart Haas Racing, as well as its first XFINITY Series Championship with Chase Elliott and JR Motorsports.

SHAPED BY A RACER, FOR THE BEST RACERS

Max's attention to detail and safety, his passion for motor sports, and never forgetting his "grass root" career start has translated into a unique STATE OF THE ART concept that is in all MPI products at feasible price points, targeted towards the budgets of racers around the globe.

At MPI we take every aspect of construction and safety to our hearts, in the most accurate and dedicated way possible. To be INNOVATIVE we push the technology of our steering wheels to the limits, while still maintaining the highest level of safety.

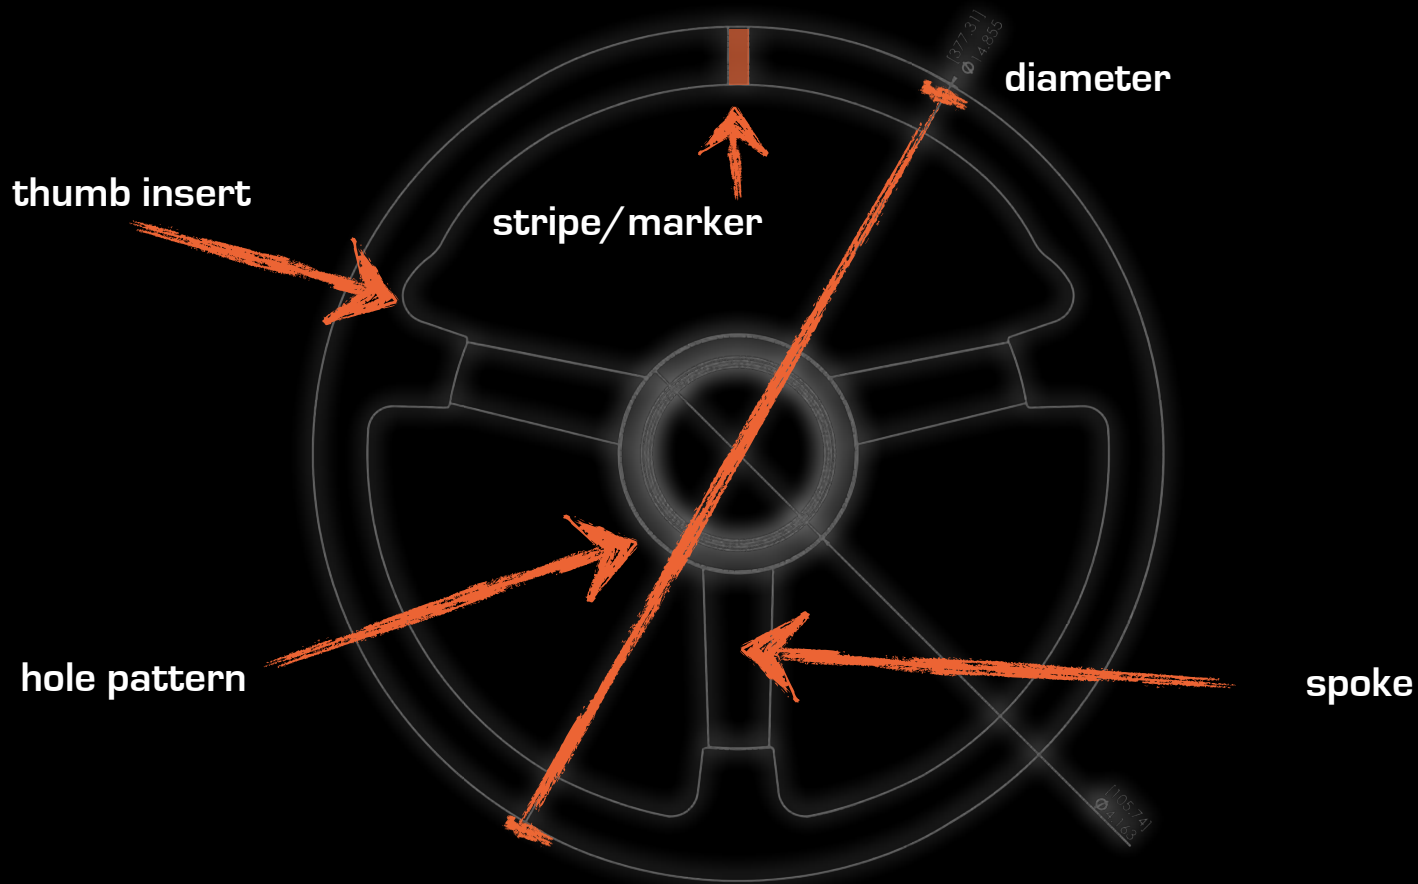

Before becoming an MPI product, our structures need to pass our internal quality control tests. Amongst the many is a "torque structural steering wheel test" that is considered one of the most severe on the "road car" market. Another is a "stress test" to see what our steering wheel does when load is applied to it, simulating what happens when a driver's hands is kept on the steering wheel during a severe impact.

We know that to produce the BEST PRODUCT on the market and be innovative we can not cut any corners. Like our founder MAX PAPIS, we are true to our values and pride ourselves in selling EXCELLENCE and not just another story.

The background features several hand-drawn, jagged, zig-zagging shapes in orange and grey, scattered across a black field. The shapes are irregular and resemble stylized arrows or abstract patterns. The text 'STEERING WHEELS' is centered in the middle of the image.

STEERING WHEELS

ANATOMY OF THE STEERING WHEEL

#MPI DIFFERENCE

STEERING WHEEL STRUCTURE

👑 Rivets, U-Channel, & Winged Spoke

👑 Technology developed to increase **SAFETY**

👑 Hand applied rivet

👑 No welding point between spoke and u-channel

#MPI DIFFERENCE

GRIP AND COMFORT

 **AMST**
ADVANCED MOLD SHAPING TECHNOLOGY

- Vibration
- + Feeling (for better feedback)

Washable material for dirt/off-road racing

-  All suede & grip applied by hand in Italy
-  Best quality of suede
-  Grip tested and approved by the best racers

MPI-MP-14/15/16-OE \$399

Stock Car (lightweight) Steering Wheel

- ✔ Industry's lightest stock car sw
- ✔ Steel structure
- ✔ Oval/Ergonomic grip with thumb insert
- ✔ Bright orange stripe/marker embedded in sw body
- ✔ CNC machined spokes
- ✔ Highest quality suede with parallel black stitching for unique look/durability
- ✔ Hole pattern: 3 holes
- ✔ Lightweight centerpiece included

- 👑 Aluminum structure
- 👑 Covered in 3 different dirt friendly/washable synthetic materials: Lederfylon high-grip, orange synthetic, carbon synthetic
- 👑 Hand sewn crossed orange stitching for unique look/durability
- 👑 Slotted spoke for reduced weight
- 👑 Hole pattern: 3 hole
- 👑 Centerpiece included

Dirt Friendly/
washable

Diameter 11"

Av.Weight .92 lbs

Dish Depth 1.25"

The background features several large, hand-drawn geometric shapes, primarily squares and rectangles with jagged, irregular edges. These shapes are rendered in two colors: a vibrant orange and a light grey. The lines are thick and have a slightly textured, brush-like appearance. The shapes are scattered across the black background, creating a dynamic and abstract composition. The word "ACCESSORIES" is centered in the middle of the image, overlaid on the patterns.

ACCESSORIES

MPI-A-CP-MPLM - \$40

Suede centerpiece for “MPI-MP”
and “MPI-LM” models

MPI-A-CP-BLDO - \$40

Suede centerpiece for “MPI-BL”
and “MPI-DO” models

MPI-A-CP-D - \$20

Polyurethane centerpiece for “MPI-D” and “MPI-DM” models

MPI-A-SBH - \$25

Single Button Holder

MPI-A-DBH - \$35

Double Button Holder

👑 Made from aircraft aluminum

👑 Anodized with MPI logo

👑 Made in the USA

MPI-A-SH - \$60

Carbon Fiber Switch Holder

- 👑 Avoid making holes in spoke for use with radio push-to-talk button, kill switch, track bar adjuster
- 👑 Snaps onto the steering wheel spoke

MPI-A-SB - \$8

Steel Brush

- 👑 Steel brush to maintain steering wheel suede
- 👑 Preserves texture and removes dirt

MPI-A-SWC - \$30

Steering Wheel Cover

- 👑 Protects steering wheel during transportation at the track and race shop

MPI-HB-MZD-1 - \$75

Steering Wheel Hub Adapter for Mazda Miata

- ✔ Absorbs outstanding impact
- ✔ Increased safety level in case of collision
- ✔ Fits 6 bolts hole pattern MPI Steering Wheels

MPI-A-CHC - \$20

Center Hole Cover

- ✔ Made from aircraft Aluminum
- ✔ Fits 6 bolts hole pattern MPI Steering Wheels
- ✔ Made in USA
- ✔ Anodized black with orange MPI Logo

MPI-A-SWH - \$15

Steering Wheel Hook

- ✔ Steering wheel hook to hang your steering wheel inside the car
- ✔ Made from aircraft Aluminum
- ✔ Anodized black with MPI Logo
- ✔ Made in USA

MPI-A-3/6BLT - \$30

Steering Wheel Adapter for MPI 6 Bolt SW

- ✔ Made from aircraft Aluminum
- ✔ 3 to 6 bolt adapter
- ✔ Fits all 6 bolt hole pattern MPI steering wheels
- ✔ Made in the USA

MPI-RS-LG - \$45

Logitech G27 & G25 Steering Wheel Adapter

- ✔ Made from aircraft Aluminum
- ✔ Fits all MPI Steering Wheels
- ✔ Recommended for iRacing
- ✔ Increase precision and feeling
- ✔ Bolts for 6 & 3 holes pattern
- ✔ Made in the USA

MPI-RS-PS - \$25

Racing Simulator Paddle Shifters

- ✔ Made from aircraft Aluminum
- ✔ Fits all G27 & G25
- ✔ Recommended for iRacing
- ✔ Made in the USA
