Axle Tether

PART NUMBER
MPD10501

Clamp / Hardware Included · Aluminum · Black Anodized · 2-3/8 in Axle Tube

OVERVIEW

Front axle tether kit sized for 2-3/8 Inch axle tubes. Check the axle tube diameter with calipers before ordering, as the three MPD sizes are close enough that guessing from appearance is unreliable and the clamp must match the tube to hold properly. Individual tethers, clamps and hardware are also available separately once the system is installed.

Kit includes two billet clamps, two 31 Inch tethers and all hardware.
