Tether King Pin Kit

King Pin Studs / Nuts · Sprint Car Axle Tether Systems

OVERVIEW

Replacement king pin studs and nuts for MPD sprint car king pin tether systems. The studs are the anchor point where the tether attaches to the king pin, so they see the full load if a front axle lets go and are worth replacing rather than reusing after any incident. Sold as a pair with nuts included.

Replacement king pin studs for the MPD Racing Sprint Car king pin tether system. The king pin tether attaches to the king pins so that they will remain with the race car in the event of a crash, as required by World of Outlaws and many other Sprint Car sanctioning bodies and tracks. Includes studs and nuts, sold as a pair.
