MPD10527

Axle Clamp

Aluminum · Black Anodized · 2-1/4 in Axles · Sprint Car Tether

OVERVIEW

Replacement billet clamps for an MPD front axle tether system, machined for the smaller 2-1/4 Inch axle tube. Axle tube diameter varies between chassis and between front axle suppliers, so confirm what you are running before ordering, since a clamp that does not match the tube will not hold the tether securely. Commonly bought as spares or to make up a second front axle.

Black anodized aluminum, sold as a pair with hardware.

Aluminum axle clamp designed for 2-1/4 Inch axles, offering a secure and precise fit in high-performance applications. Lightweight yet durable, it features a black anodized finish for added corrosion resistance and a clean, race-ready look. Sold as a pair.

SPECIFICATIONS

Location / Position	**Axle**
Material	**Aluminum**
Color	**Black**
Finish	**Anodized**
Intended Axle Tube Diameter	**2-1/4"**
Logo	**MPD Logo**
