PART NUMBER

Drive Stud

MPD12300

Steel · Cadmium · 6 Pin Sprint Car Hub

OVERVIEW

Steel drive stud for six pin sprint car hubs, giving a secure connection under the high torque loads the drive pins carry. Steel is the durable choice where the titanium version prioritizes weight. Sold individually.

This steel drive stud is designed for 6-pin sprint car hubs, providing a secure and reliable connection under high-load conditions. Cadmium plated for enhanced corrosion resistance, it delivers durable performance and consistent fitment. Threaded drive stud with 5/8-11 Inch thread on the pin and 1/2-20 Inch thread on the shank.

Fits bolt-on front hubs. This stud fits the old style MPD pavement hub 013000, 013000LT, 015000. This stud is not made for 17000 hub.
