Drive Stud

PART NUMBER
MPD12305

1/2-20 in Thread · Titanium · Natural · 6 Pin Sprint Car Hub

OVERVIEW

Titanium drive stud for six pin sprint car hubs with 1/2-20 Inch threads. Titanium takes weight out of a rotating component while handling the shear loads a drive stud sees, and it will not corrode where a steel stud can seize into the hub. Sold individually.

High-performance drive stud designed for 6-pin sprint car hubs. Features 1/2-20 Inch threads and is precision-made from lightweight, high-strength titanium with a bullet nose for easier wheel installation. Natural finish.
