

FASTENERS › WHEEL AND TIRE FASTENER KITS › WHEEL LUG NUTS

PART NUMBER

Lug Nut

MPD12400

5/8-11 in Right Hand Thread · Aluminum · Black Anodized · 6 Pin Sprint Car

OVERVIEW

Aluminum lug nuts for six pin sprint car hubs with 5/8-11 Inch right hand thread, black anodized. Aluminum keeps rotating weight down at the wheel, and lug nuts are removed and refitted more than almost any fastener on the car so fresh ones are worth having. Sold as a three pack.

Aluminum lug nuts for 6-pin sprint car hubs, machined with a 5/8-11 Inch right hand thread and finished in black anodize for corrosion resistance. The 6-pin design allows quick installation and removal. Sold as a set of 3.
