

FASTENERS › WHEEL AND TIRE FASTENER KITS › WHEEL LUG NUTS

PART NUMBER

Lug Nut

MPD12405

5/8-11 in Right Hand Thread · Titanium · Natural · 6 Pin Sprint Car

OVERVIEW

Titanium lug nuts in 5/8-11 Inch right hand thread for sprint car hubs. Titanium resists the thread galling that aluminum nuts suffer after repeated hot pit stops, while still weighing far less than steel. Sold as a three pack.

Lightweight and durable, these 5/8-11 Inch right hand thread lug nuts are precision-machined from titanium for sprint car performance. The 6-pin design allows quick installation and removal, while the natural finish resists corrosion. Sold as a set of three.
