PART NUMBER

Spindle

MPD14000

Aluminum Body · 10 Degree Steel Snout · Steel Locknut Included · Aluminum / Steel · Black Anodized / Natural · Sprint Car

OVERVIEW

Sprint car spindle forged from 7075-T6 aluminum for maximum strength at minimum weight, with a 10 Degree steel snout. Forging rather than machining from billet gives grain flow that follows the part, which matters on a component that sees every impact the front wheel takes. Steel locknut included.

Black finish, sold individually.

Sprint Car spindles are manufactured using a 7075-T6 aluminum forging for maximum strength with minimum weight. This version features a 10 Degree steel snout with a black anodized aluminum body, 2 ear design, and includes a steel lock nut. Sold individually.
