Spindle Nut

Keyed Washer / Screws Included · Steel · Natural · MPD Pavement Sprint Spindle

OVERVIEW

Steel lock nut for the MPD14120 pavement sprint spindle. The nut retains the hub on the spindle and sets bearing preload, so a correct, secure fit here is what keeps the wheel where it belongs. Includes the keyed washer and screws needed to lock the nut in position and prevent it backing off under load.

Steel with a natural finish. Sold individually.
