PART NUMBER

Steering Arm

MPD14132

Driver Side · Non-Adjustable · Aluminum · Black Anodized · Sprint Car

OVERVIEW

Left front single mount steering arm for pavement sprint cars, non-adjustable so the geometry is fixed where the design puts it. A non-adjustable arm removes a variable from the setup, which is an advantage on pavement where the front end is dialed in and left alone. Machined from 2024 aluminum, drilled and tapped 1/2 Inch NF.

Black anodized, sold individually.

The MPD Racing sprint steering arms are machined from 2024 aluminum, drilled and tapped 1/2 Inch NF for mounting. This left front single mount, non-adjustable arm is finished in black anodize and suits pavement Sprint Car applications. Sold individually.
