PART NUMBER

# Pressure Plate

**MPD16401**

6 Pin · Aluminum · Black Anodized · Sprint Hub

## OVERVIEW

The black anodized version of the MPD six pin pressure plate for asphalt sprint car hubs, weighing 1.08 pounds. Anodizing adds a hard surface layer that resists the scuffing this part sees every time a wheel is changed, so the finish stays presentable through a season of pit stops. Functionally identical to the natural finish version.

This black anodized aluminum 6-pin pressure plate is built specifically for Asphalt Sprint Cars and weighs just 1.08 pounds. Lightweight, durable, and ready for the track. Sold individually.

## SPECIFICATIONS

|                     |                                  |
