MPD16426

Wheel Spacer

6 × 5 in Bolt Pattern · 0.5 in Thick · Aluminum · Natural

OVERVIEW

At 1/2 Inch, this is the thickest spacer in the MPD range and the one to reach for when a wheel and brake package needs substantial clearance or a large track width change. It is also useful for correcting offset when running a wheel that was not originally intended for the hub. Aluminum keeps the added rotating weight low, and the 6 × 5 Inch bolt pattern fits 6 pin sprint car front hubs.

SPECIFICATIONS

Material	**Aluminum**
Color	**Natural**
Finish	**Natural**
Wheel Bolt Pattern	**6 × 5 Inch**
Inside Diameter	**3.556"**
Outside Diameter	**5.945"**
