Steering Box Mount

MPD18820

Fuel Shutoff Mount · Aluminum · Black Anodized · MPD Shutoff Valve · Sprint Car

OVERVIEW

Upper steering box mount with a hole for the fuel shut-off valve, putting two components on one bracket. Combining the mount and the shut-off position saves a separate bracket and keeps the shut-off where the driver can reach it. Machined from aluminum, black anodized, suits the MPD shut-off valve.

MPD offers a variety of mounts to cover all the needs of installing steering gears and pumps. This is the upper power steering mount for the shut-off valve, with a hole for the fuel shutoff. Machined from aluminum with a black anodized finish for use with the MPD shutoff valve.
