# Power Steering Adapter

Aluminum · Black Anodized · Sprint Car

## OVERVIEW

Power steering mount adapter for sprint cars, machined from aluminum with a black anodized finish. Mounting a steering pump securely is what stops belt alignment drifting and hoses chafing, so a purpose-made adapter is worth more than a fabricated bracket. Sold individually.

MPD offers a variety of mounts to cover all the needs of installing steering gears and pumps. This is the power steering mount adapter, machined from aluminum with a black anodized finish for Sprint Car applications. Sold individually.
