Birdcage

Driver Side · 2.145 in ID Bearing · Single Bearing · Bearing / Bolts / Washers · Aluminum · Black Anodized · Midget

OVERVIEW

Left rear midget birdcage machined from billet 6061 aluminum, supplied complete with a split race angular contact bearing and hardware. The birdcage carries the axle and gives the torsion arm and radius rods their mounting points, so it takes load from every direction at once. Split race bearings allow assembly without pressing.

Driver side, 2.145 Inch bearing bore.

The MPD billet birdcages are made of billet 6061 aluminum. They come complete with split race angular contact bearings and hardware. This is the left rear birdcage for Midget applications, with a 2.145 Inch ID single bearing and black anodized finish.

Includes bearing, bolts and washers. Sold individually.
