PART NUMBER

Steering Wishbone

MPD28260

Aluminum · Black Anodized · Midget

OVERVIEW

Wishbone steering arm for midgets in black anodized billet aluminum. The wishbone form triangulates the arm between two mounting points instead of one, which resists twisting under steering load better than a single arm. Uses 7/16-20 Inch threaded mounting and fits all midget steering applications.

MPD steering arms are made of a high-quality billet aluminum. These arms work on all Midget steering applications and have 7/16-20 Inch threaded mounting holes. This is the wishbone steering arm in black anodized.

SPECIFICATIONS

Material	Aluminum
Color	Black
Finish	Anodized
Thread	7/16-20"
Sold As	Each

SHIPPING & PACKAGING

Package	7.35 × 6 × 0.85 in
