Pitman Arm

PART NUMBER
MPD28340

10 to 11 in Long · Straight · Aluminum · Black Anodized · Sprint Car

OVERVIEW

Straight pitman arm for sprint cars, adjustable from 10 to 11 Inch. Pitman arm length changes steering ratio directly, with a shorter arm giving quicker response and a longer arm giving more leverage and a calmer feel, which is why MPD offers several lengths and styles. The straight pattern is the baseline choice.

Black anodized aluminum, sold individually.

MPD offers a variety of different styles of Pitman arms to make sure you get the correct feel of the race car. This is the straight Pitman arm in black anodized aluminum with 10 Inch and 11 Inch holes. Sold individually.
