PART NUMBER

Spindle

MPD28404

Aluminum Body · 10 Degree Steel Snout · Steel Locknut Included · 2 Ear · Aluminum / Steel · Black Anodized / Natural · Midget

OVERVIEW

Right hand midget spindle machined from billet 2024-T3 aluminum with a 10 Degree steel snout. The two ear configuration gives a single mounting point for the steering arm, which suits midget front ends where a four ear spindle would foul on adjacent components. Supplied complete with the steel spindle locknut.

Black finish, sold individually.

MPD Midget spindles are produced from billet 2024-T3 aluminum and are offered with both steel and titanium shafts. They come complete with spindle lock nuts. This is the 2 ear version with a 10 Degree steel snout, black anodized body and natural steel shaft.
