FITTINGS HOSES AND VALVES › FITTINGS AND PLUGS › QUICK DISCONNECT FITTINGS

PART NUMBER
MPD28600

Fitting

Quick Disconnect · Both Halves to 3 AN Male · Aluminum · Black / Gray Anodized

OVERVIEW

Dry break quick disconnect fittings in 3 An, releasing with a quarter turn and sealing both halves so the brake line does not lose fluid when disconnected. Being able to separate a brake line without bleeding the system afterward saves real time when swapping components. Sold as a set.

MPD Racing has released their new dry-break, quick-disconnect 3 An fittings. A quarter turn disconnects the line with no tools needed. The internal high-tension spring-loaded seal provides a positive lock between ends preventing air from entering and fluid from escaping.

Both halves terminate in 3 An male. Black and gray anodized aluminum. Sold as a kit.

SPECIFICATIONS

Material	**Aluminum**
Color	**Black**
Finish	**Anodized**
Sold As	**Kit**

SHIPPING & PACKAGING

Package	**4.05 × 2.15 × 1 in**
