Grease

Torsion Bar Spline Grease · Synthetic · 8 oz Tub

PART NUMBER
MPD30020

OVERVIEW

Extreme pressure grease formulated for torsion bar splines and sprint car drivelines, using a high viscosity base. Splines see high contact pressure over small areas, which squeezes ordinary grease out and leads to fretting where the parts move against each other. Sold individually.

Designed to provide top-quality protection for torsion bars and Sprint Car drive lines. It utilizes a high-viscosity synthetic base, proprietary anti-wear additive, and Polyurea thickener that is specifically developed to extend durability. Supplied in an 8 oz tub.

SPECIFICATIONS

Sold As	Each

SHIPPING & PACKAGING

Package	3.6 × 3.6 × 2.6 in
Ship Weight	0.60 lb
Country of Origin	USA
Vehicle Type	Car
