MPD30104

Torsion Bar Bushing

1-1/8 in ID · Nylon · Red · 0.095 in Thick · Sprint Car

OVERVIEW

Torsion bar bushings in red nylon, 1-1/8 Inch inside diameter and 0.095 Inch thick, supplied as a four pack. The bushing is what the torsion bar rotates in, so a low friction material means the bar responds to small suspension movements instead of sticking. Nylon runs quieter and lighter than bronze.

Sprint car fitment.

Torsion bushings are 1-1/8 Inch ID x 0.095 Inch thick. Performance-tested anti-friction material offers increased wear-resistance allowing for longer part life. Nylon bushing features include less friction, properties that remain constant, high impact strength in humidity, improved abrasion resistance, improved lubrication, improved weatherability and improved thermal stability.

This is the red nylon version. Sold as a 4-pack.

SPECIFICATIONS

Material	**Nylon**
Color	**Red**
Inside Diameter	**1-1/8"**
Thickness	**0.095"**
Sold As	**Set of 4**

SHIPPING & PACKAGING

Package	**4.2 × 4 × 2.05 in**
Ship Weight	**0.12 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
