Torsion Bar Bushing

1-1/8 in ID · Nylon · Red · 0.095 in Thick · Sprint Car

OVERVIEW

The ten pack of red nylon torsion bar bushings, 1-1/8 Inch inside diameter and 0.095 Inch thick. Buying ten covers a full chassis with spares, which is worth doing since bushings are cheap and replacing them all at once keeps friction consistent corner to corner. Sprint car fitment.

Torsion bushings are 1-1/8 Inch ID x 0.095 Inch thick. Performance-tested anti-friction material offers increased wear-resistance allowing for longer part life. Nylon bushing features include less friction, properties that remain constant, high impact strength in humidity, improved abrasion resistance, improved lubrication, improved weatherability and improved thermal stability.

This is the red nylon version. Sold as a 10-pack.

SPECIFICATIONS

Material	**Nylon**
Color	**Red**
Inside Diameter	**1-1/8"**
Thickness	**0.095"**
Sold As	**Set of 10**
