Torque Ball

2.995 in ID · 1.95 lbs · Aluminum · Black Anodized · MPD Torque Ball Assembly

OVERVIEW

Extra long torque ball with 2.995 Inch inside diameter, weighing 1.95 pounds. The extra length gives more bearing surface inside the tube, which suits high load applications where a standard ball wears quickly. Machined from solid billet aluminum and hard anodized to prevent binding.

MPD Torque Balls are machined out of solid aluminum billet and are hard anodized to keep from binding. This is the extra long ball with 4.45 Inch ball diameter and 2.995 Inch ID, weighing 1.95 pounds. Black anodized.

SPECIFICATIONS

Material	Aluminum
Color	Black
Finish	Anodized
Inside Diameter	2.995"
Outside Diameter	4.45"
Style	Long Ball
Matching Components	MPD68200
Sold As	Each

SHIPPING & PACKAGING

Package	16.6 × 8 × 4.4 in
Ship Weight	1.89 lb
Country of Origin	USA
Vehicle Type	Car
