PART NUMBER

Torque Tube

MPD64650

Heavy Duty · 28 in Long · 2.99 in OD · Long Collar · Aluminum · Black / Silver · Sprint Car

OVERVIEW

Heavy duty 28 Inch torque tube with a long collar, built for applications that punish a standard tube. The longer collar spreads clamping load over more surface area, which resists the collar working loose or distorting under repeated shock from the driveline. Turned to 2.990 Inch outside diameter with 0.005 Inch torque ball clearance.

Anodized aluminum, sold individually.

MPD anodized aluminum torque tubes are turned to 2.990 Inch OD and reamed to 2.628 Inch ID to ensure 0.005 Inch clearance between the torque ball and torque tube. The torque collars have been lightened with a ball mill to decrease weight. All torque tube assemblies are supplied with an o-ring.

This is the heavy duty long collar 28 Inch tube in black. Sold individually.

SPECIFICATIONS

Material	Aluminum
Color	Black
Finish	Anodized
Length	28"
Inside Diameter	2.628"
Outside Diameter	2.990"
Style	Heavy Duty Long Collar
Matching Components	MPD64205, MPD64202
Sold As	Each

SHIPPING & PACKAGING

Package	30.5 × 6.5 × 6.5 in
Ship Weight	9.55 lb
Country of Origin	USA
Vehicle Type	Car
