Axle Sprocket

PART NUMBER
MPD69050

50 Tooth · 2.75 in Bolt Pattern · Aluminum · Black Anodized · Quarter Midget

OVERVIEW

Axle sprocket with 50 teeth, the highest count in the MPD quarter midget range and the shortest gearing offered. Maximum acceleration off the corner at the cost of top end, which suits tight tracks where the car never reaches terminal speed on the straight. Machined from aluminum, black anodized, 2.75 Inch bolt pattern.

Quarter Midget axle belt drive sprocket with 50 tooth count and 2.75 Inch bolt pattern. Machined from aluminum with a black anodized finish. Sold individually.
