Engine Sprocket

PART NUMBER
MPD69056

56 Tooth · Aluminum · Black Anodized · Quarter Midget

OVERVIEW

Engine drive sprocket with 56 teeth for quarter midget belt drive systems, the lowest count of the three MPD engine sprockets. Engine and axle sprockets work as a pair to set final drive, and changing at the engine end shifts the whole ratio range available from your axle sprockets. Machined from aluminum with a black anodized finish.

Quarter Midget engine drive sprocket with 56 tooth count. Machined from aluminum with a black anodized finish. Sold individually.
