PART NUMBER

Torsion Arm

MPD82000

Front · Driver Side · 1-1/8 in x 48 Spline · 19.5 in Long · Hardware Included · Aluminum · Black Anodized · Sprint Car

OVERVIEW

Left front torsion arm at 19.5 Inch, machined from high strength 2024 aluminum with 1-1/8 by 48 spline. The arm transfers wheel movement into the torsion bar, so its length is part of the effective spring rate at that corner. Arms are precisely radiused to shed weight while keeping strength where the load runs.

Hardware included, black finish.

MPD torsion arms are constructed of high-strength 2024 aluminum. The arms have been precisely radiused to reduce excess weight while maintaining strength and durability. This is the front driver side arm, 1-1/8 Inch x 48 spline, 19-1/2 Inch long, black anodized with hardware included.

SPECIFICATIONS

Location / Position	Front - Driver Side
Material	Aluminum
Color	Black
Finish	Anodized
Length	19.5"
Spline Diameter	1-1/8"
Spline Count	48
Sold As	Each
