PART NUMBER

Brake Rotor Adapter

MPD86500

Outboard · 8 × 7.000 in / 8 × 7.500 in Rotor Bolt Pattern · 42 Spline · Aluminum · Black Anodized · MPD Sprint Hubs

OVERVIEW

Splined brake adapter that mounts an outboard rotor to a 42 spline sprint car axle. The splined interface drives the rotor directly off the axle rather than through the hub, which is how outboard brake setups on the rear of a sprint car are built. Drilled with both 8 on 7 Inch and 8 on 7 5/8 Inch rotor bolt patterns, so it covers two common rotor patterns from one part.

Black anodized aluminum, 2.5 Inch, manufactured in the USA from USA materials.

Sprint Car Splined Brake Adapter 2.5 Inch - 42 Spline. Has both 8 on 7 Inch and 8 on 7 5/8 Inch rotor bolt patterns. This product is manufactured in the USA out of materials from the USA.
