Axle Spacer

0.875 in Wide · Tapered · Aluminum · Black Anodized · Sprint Car Axle

OVERVIEW

Tapered rear axle spacer at 7/8 Inch wide, the widest single spacer in the MPD range and a substitute for stacking several thinner ones. Fewer joints in the stack means fewer surfaces to work loose. Black anodized aluminum, sprint car axle fitment.

MPD Racing's axle spacer system uses a split cone spacer which allows moving the wheel in or out without going back to look for the right size spacer. This is the 7/8 Inch (0.875 Inch) wide tapered rear axle spacer in black anodized aluminum. Made in the USA.
