MPD87008

Tapered Spacer

0.875 in Thick · Cone Spacer · Aluminum · Black Anodized · 42 Spline · Sprint Car

OVERVIEW

Tapered 7/8 Inch rear axle spacer with a 42 spline bore, driving directly off the axle splines. This is the splined version of the plain 7/8 Inch tapered spacer, for setups where the spacer needs to be positively driven rather than clamped. Black anodized aluminum.

MPD Racing's axle spacer system uses a split cone spacer which allows moving the wheel in or out without going back to look for the right size spacer. This is the 7/8 Inch (0.875 Inch) wide tapered cone spacer with 42 spline in black anodized aluminum. Made in the USA.

SPECIFICATIONS

Location / Position	**Rear**
