Axle Spacer

0.5 in Thick · Cone · Female · MPD System Saver · Aluminum · Black Anodized · Sprint Car

OVERVIEW

Replacement female cone for the MPD axle spacer system, the half that seats against the wheel nut. Cones take the clamping load every time a wheel is torqued, so a damaged or galled cone is worth replacing rather than persevering with. Sprint car fitment, 1/2 Inch thick, black anodized aluminum.

Extra cone for the MPD axle spacer system kit. This is the female cone for the wheel nut, 1/2 Inch (0.500 Inch) thick, in black anodized aluminum for Sprint Car applications. Sold individually.
