Wheel Center Bolt Kit

5/16-24 in Thread · 1 in Long · Hex Head · Titanium · Natural

PART NUMBER
TIP1015
View on PriceGuidePro ›

OVERVIEW

Wheel center bolts hold the center to the rim shell, carrying all the load the wheel sees. A failed bolt in this joint means a wheel coming apart. Correct thread and length are what let each bolt clamp properly.

Titanium options remove rotating weight at the outer edge of the wheel.

Titanium bolt kit includes (15) lightweight 5/16 Inch-24 x 1 Inch long hex-head bolts for added weight savings.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Thread	**5/16-24**
Head Style	**Hex Head**
Product Length	**1 Inch**
Sold As	**Set of 15**

SHIPPING & PACKAGING
