Steering Wheel Fastener Kit

5/16-18 in Thread · 0.5 in Long · Hex Head · Titanium · Natural · Quick Disconnect

PART NUMBER
TIP1020
View on PriceGuidePro ›

OVERVIEW

Steering wheel fastener kits provide the bolts that hold a quick release hub to the wheel, carrying every steering input the driver makes. A failed fastener here means losing the wheel in your hands. Correct thread and length are what let them clamp reliably.

Titanium options save weight in the cockpit.

Quick release bolt kit, 5/16 Inch-18 x 1/2 Inch hex, titanium.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Thread	**5/16-18**
