# Torque Tube Nut

3/8-24 in Thread · 12 Point · Titanium · Natural

PART NUMBER
**TIP1054**
View on PriceGuidePro ›

## OVERVIEW

Torque tube nuts retain the tube assembly, carrying driveline torque reaction. A loose nut lets the assembly shift, misaligning the driveline. Twelve-point designs give better wrench purchase in the tight space around the tube.

Titanium options save weight at the center of the car.

Titanium torque tube nuts have 3/8 Inch-24 threads and 12-point heads for improved wrenching. Set of 6.

## SPECIFICATIONS

| | |
|---|---|
| Material | **Titanium** |
| Finish | **Natural** |
| Thread | **3/8-24** |
| Head Style | **12 Point** |
| Sold As | **Set of 6** |

## SHIPPING & PACKAGING
