Shock Mount Stud

1/2-20 in Thread · 2 in Long · Titanium · Natural · Sprint Car

PART NUMBER

TIP1068

[View on PriceGuidePro >](#)

OVERVIEW

Shock mount studs anchor the shock to the chassis or axle, taking every compression and rebound load the suspension generates. A stud that fails or loosens lets the shock move, changing damping behavior instantly. Locking nut designs resist the vibration that walks ordinary hardware loose.

Titanium options cut weight at a mounting point that sees constant cycling.

Engineered exclusively for 2017 and newer Triple X sprint chassis utilizing billet, double-hole front shock towers, super-light titanium stud has 1/2 Inch-20 threads and includes a built-in shock spacer.

SPECIFICATIONS

Material	Titanium
Finish	Natural
Thread	1/2-20
Product Length	2 Inch
Vehicle Type	Sprint Car
Sold As	Kit

SHIPPING & PACKAGING

Package	4.05 x 3.2 x 1.3 in
Ship Weight	0.16 lb
Country of Origin	USA
Vehicle Type	Car
