Jacobs Ladder Spacer

1 in Wide · 3/8 in ID · Nylon · Black

PART NUMBER
TIP1076
View on PriceGuidePro ›

OVERVIEW

Ladder spacers position the ladder straps correctly on their pins so the linkage moves in the intended plane. Misaligned straps bind and wear at the pivot. Nylatron and aluminum versions trade friction against strength.

Spacers are inexpensive parts that keep an important adjustment working freely.

Jacobs Ladder Spacer, 1 Inch Wide, 3/8 Inch ID, Nylon, Black. Sold in pairs.

SPECIFICATIONS

Material	**Nylon**
Finish	**Black**
Product Width	**1 Inch**
