Jacobs Ladder Pin Clip

Steel · Zinc Oxide · 3/8 in Diameter Pins · Sprint Car

PART NUMBER
TIP1077
View on PriceGuidePro ›

OVERVIEW

Ladder pin clips retain the pin so it cannot walk out under vibration, which is the only thing keeping the ladder connected. A lost clip means a lost pin and a freed suspension link. Correct clip size for the pin diameter is what makes retention positive.

These are tiny consumables, so packs are the sensible purchase.

Jacobs Ladder Pin Clip, Steel, Zinc Oxide, 3/8 Inch Diameter Pins, Sprint Car. Set of 4.
