OVERVIEW

Spindle fasteners hold the steering arm and brake bracket to the spindle, carrying steering and braking loads at the most safety-critical corner of the car. A failed fastener here has serious consequences. Correct thread, length, and head style are what let each bolt do its job in a specific location.

Titanium options reduce unsprung weight.

Spindle fastener bolt kit contains (2) 1/2 Inch-20 thread x 2.100 Inch long hex bolts for the steering arm and (2) 1/2 Inch-20 thread x 2.00 Inch long countersunk Torx-head bolts for the brake bracket.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Thread	**1/2-20**
Head Style	**Bolt**
Product Length	**2.100 Inch, 2.000 Inch**
Sold As	**Kit**

SHIPPING & PACKAGING

Package	**4 × 2.15 × 1.75 in**
Ship Weight	**0.27 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
