Brake Caliper Bolt

1/2-20 in Thread · 2 in Long · Allen Head · Titanium · Natural · Universal

PART NUMBER
TIP1084
View on PriceGuidePro ›

OVERVIEW

Caliper bolts hold the brake caliper to its bracket under the full force of every stop, making them a safety-critical fastener. A bolt that stretches or shears puts braking at risk. Correct grade, thread, and length are what let the bolt carry that load reliably.

Titanium options cut weight at an unsprung corner without giving up strength.

Allen-head bolts, 1/2 Inch-20 x 2 Inch, available in steel or titanium. Sold in kits of 2. Front caliper mount bolts are 2 Inch long with 1/2 Inch-20 thread.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Thread	**1/2-20**
Head Style	**Allen Head**
Product Length	**2 Inch**
Vehicle Type	**Universal**
Sold As	**Pair**
