U-Joint Strap Bolt

7/16-20 in Thread · 7/8 in Long · Hex Head · Titanium · Natural · Universal

PART NUMBER
TIP1140
View on PriceGuidePro ›

OVERVIEW

U-joint strap bolts hold the universal joint straps that retain the joint in its yoke, carrying full driveline torque. A failed strap bolt releases the driveline. Correct grade and length are what let the bolt hold that load.

Kits include the nuts and washers needed for a complete installation.

For the weight-conscious racer, kit includes (4) 7/16 Inch-20 x 7/8 Inch long premium titanium fasteners.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
