Pinch Bolt

3/8-24 in Thread · 1.875 in Long · Hex Head · Titanium · Natural · Pitman / Torsion Arms · Sprint Car

PART NUMBER
TIP1240
View on PriceGuidePro ›

OVERVIEW

Pinch bolts clamp splined joints like torsion arms and Pitman arms, and they are what stop those parts from rotating on their splines under load. A loose pinch bolt lets the arm move, changing your setup with no warning. Correct grade and length are what generate the clamping force needed.

These get wrenched constantly, so quality affects how long threads last.

Kit includes five titanium bolts to replace standard 3/8 Inch-24 x 1-7/8 Inch hardware found in most torsion and Pitman arms. Bolt kit weighs less than 90 grams.

SPECIFICATIONS

Material	**Titanium**
Finish	**Natural**
Thread	**3/8-24**
Head Style	**Hex Head**
Product Length	**1.875 Inch**
Vehicle Type	**Sprint Car**
Product Weight	**Less Than 90 Gram**
Sold As	**Set of 5**

SHIPPING & PACKAGING

Package	**4.25 × 2 × 1.4 in**
Ship Weight	**0.22 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
