Axle Tether

King Pin to King Pin · Hardware Included · 51-53 in Axles

PART NUMBER
TIP2014
View on PriceGuidePro ›

OVERVIEW

Axle tethers keep a wheel and axle attached to the car if a component fails, which is why sanctioning bodies require them. This is purely a safety part, protecting the driver, crew, and spectators from a loose wheel. Approved designs meet the specifications tech inspection checks.

Tethers are inspected and replaced after any incident, so spares belong in the trailer.

These Ti22 Performance axle tethers are World Of Outlaws, Allstar, and Knoxville approved.
