Birdcage Bolt

1/2-20 in Thread · 3.5 in Long · Hex Head · Steel · Natural · Ti22 Sprint Car Birdcage

PART NUMBER
TIP2103
View on PriceGuidePro ›

OVERVIEW

Birdcage bolts hold the pickup points that connect torsion arms, radius rods, and shocks to the cage, carrying suspension loads every lap. A bolt that shears or wears oval changes suspension geometry with no visible warning. Correct diameter and shoulder length are what keep the pickup located precisely.

These are wear items on a rotating assembly, so periodic replacement is standard.

Replacement birdcage component. Lower Pickup Shoulder Bolt. Fits Pro Birdcages.

SPECIFICATIONS
