Birdcage Bearing

2.750 in ID · 3.937 in OD · 0.630 in Wide · Double Row · Angular Contact · Steel · TI22 Birdcage

PART NUMBER
TIP2120
View on PriceGuidePro ›

OVERVIEW

The birdcage bearing lets the cage rotate on the axle while carrying suspension load, making it the part that determines whether the cage moves freely or binds. A binding bearing absorbs horsepower and dulls the driver's feel for the rear of the car. Correct bore and bearing type match the cage design being serviced.

Bearings are wear items, inspected at teardown and replaced at the first sign of roughness.

Replacement birdcage component. DBL Cage Bearing. Fits Double Wide Birdcages.

SPECIFICATIONS

Material	**Steel**
Product Width	**0.630 Inch**
Outside Diameter	**3.937 Inch**
